The strength of a national company with local customer service.

Pavestone Company began in 1980 with one manufacturing facility in North Texas. From the beginning, we dedicated ourselves to delivering the greatest selection and the highest quality of segmental concrete systems available in the U.S. Our pave stones, retaining walls, edgers, patio stones, and erosion control systems transform landscapes into beautiful dreamscapes. Today, Pavestone brand products are manufactured in 16 state-of-the-art facilities delivering to more than 40 states. Thank you for choosing our products to add beauty and value to your landscape.

WHAT WILL YOU CREATE?
Forward

We wrote the book on creating elegant outdoor living spaces.

Inside its pages you will find beauty, strength, durability and functionality. But our book is not just about us. Your project is one of the stories that we are proud to include in its pages. Let us help you construct outdoor living spaces that invite people to come outside to relax or entertain in natural settings that preserve the Earth. Tell a story that lends a feeling of warmth and serenity to the atmosphere and creates a lifestyle that is one-of-a-kind. The sky is the limit. You have unlimited potential to compose that story. What will you create?
Chapter One

Pavers

Does your story tell of the stately look of old yesterday or of a contemporary flair?

The possible applications for pavers are only limited by your imagination. Maximize your outdoor living experience with a design that is all your own. Create a scenic walkway in a beautiful downtown park. A variety of hues and textures allow you to have unlimited possibilities to both compliment and enhance the natural beauty of any surrounding while being friendly to the environment. From palatial outdoor entertaining areas to pool decks with a relaxing spa-like feel, you can count on unsurpassed strength and flexibility. Concrete pavers can withstand the forces of weather, water and traffic. Plus, they are especially designed to withstand freeze-thaw conditions, making them a good choice for cool as well as warm climates. Your design project will be as beautiful years from now as it is the day it is installed, telling your story again and again.
ECO-VENETIAN STONE™ II / GRANITE BLEND

HOLLAND STONE / OAKS BLEND
“The environment is where we all meet; where we all have a mutual interest; it is the one thing that all of us share. It is not a mirror of ourselves, but a focusing lens on what we can become.” - Lady Bird Johnson
The Next Generation of Permeable Paving Solutions

Who says it has to be Industrial-looking?

Performs as a structural pavement

Reduces or eliminates stormwater detention

Provides 100% pervious surface

Infiltrates, filters and decreases stormwater runoff rate and pollutant loads

Increases site infiltration that helps maintain pre-development runoff volumes, peak flows and time of concentration
Standard Paver Collection

Eco-Venetian Stone™ II Combo

The Eco-Venetian Stone™ II larger scales lends itself to stately residential settings and more expansive commercial applications. Its modular square and rectangular shapes with a cleft surface set it apart from other permeable pavement treatments. This texture resembles stone facing and invokes a more natural convention.

Eco-Enviro Stone™

Pavestone Eco-Enviro Stone™ is the sustainable solution for permeable pavements. The unique Eco-Enviro Stone™ joint profile allows surface water to infiltrate into the pavement and its sub-layers.

Colors printed here are as true a match as the printing process will allow. For best matching results, please refer to actual samples.
InfiltraStone™
Concrete Paver Environmental Systems  80mm

InfiltraStone™, a permeable pavement application, offers unique advantages over traditional pavements.

Finished installations of the InfiltraStone™ provide a matrix of surface openings designed to capture a percentage of surface water run off and infiltrate it to the drained paving section. The end results are attenuation of runoff, increase in water quality and mitigation of pollutant impact on the surrounding environment. Paving design, material selection and drainage combine to make InfiltraStone™ a potential Best Management Practice for EPA compliance requirements.

Grsstone™ II

Grasstone™ II is a multi-functional product that can be used for slope surface stabilization and temporary overflow and emergency vehicle access.

The honeycomb shape allows grass and other vegetation to grow, while making the slope, trail or field area a more stable surface for occasional heavier duty.
Adirondack Heritage™ Series
60mm

This captivating paving stone features the historic combination of square and rectangular modules working in tandem to create a random segmental paving surface.

While its unique and distinct cast edge treatment sets this stone apart from its class, Adirondack’s textured surface creates the feel of old cobble paving.

Product Number: Sm. Rec., Med. Rec., Lg. Rec., XL Rec.: 504 (Bundled Together) 60mm = 2 3/8" H
Sm. Rec.: 5 1/2" W x 4 11/16" L, Med. Rec.: 5 1/2" W x 6 11/16" L
Lg. Rec.: 5 1/2" W x 7 13/16" L, XL Rec.: 5 1/2" W x 9 3/8" L

Colony Cobble® Heritage™ Series
60mm

The Colony Cobble® product provides a nostalgic appeal for both residential and commercial environments.

The textured surface expresses an aged and weathered appearance suitable for most trafficked pavements. The products’ running bond pattern conveys a tradition of Colonial architecture and complements any paving treatment. The four individual components merge to create the right and proper appeal. Distinctive in its look, the Colony Cobble® is long-established in its allure.

Product Number: 401 (Bundled Together) 60mm = 2 3/8" H
Sm. Rec.: 5 7/8" W x 5" L, Lg. Rec.: 5 7/8" W x 6 2/3" L, Sq.: 5 7/8" W x 5 7/8" L, Giant.: 5 7/8" W x 7 1/3" L

**Multi-Cobble Paver**

50mm

Imparting classic European elegance to paved areas with its old world design, Muti-Cobble Paver offers unique design possibilities.

This elegant paver creates the look of hand laid cobbled pavement. Three modules with varying patterns of false joints mimic the aesthetic design of a classic European street or country road. The 50mm thickness is intended for non-vehicular traffic.

**Plaza Stone Recs & Squares**

45mm & 80mm

Pedestrian projects such as patios, walkways, pool decks, and courtyards can be enhanced with the use of Pavestone’s thinner profile concrete pavers.

Available in many colors, choose Plaza Stone in standard or Heritage™ Series finish to deliver unlimited design possibilities.

**Product Numbers:**
- 607, 648, 612, 642

Whether you are designing a breathtaking outdoor entertainment area, an in-ground space for a hot tub, or a special common area that can be enjoyed by many, segmental retaining walls can help you tell your story.

Get back to nature with an outdoor space that is both inviting and stylish. Utilize natural slopes of the terrain to produce awe-inspiring architectural artwork that beautify the Earth. With a wide range of shapes, colors and textures available, you can mix and match to create unique works that enhance natural surroundings and often turn what was once unusable space into a focal point. Segmental wall systems are built to be extremely durable and resilient under even the most adverse environmental conditions. Your masterpiece will tell your story for years to come.
Anchor™ Diamond® & Pavestone Cap
Retaining Wall System

The Anchor™ Diamond® retaining wall stones provide economy of effort in a structural, finished product.

The patented rear lip facilitates construction and ensures proper alignment and a precise setback. The Anchor™ Diamond® stone is available in the distinctive straight or beveled face style and in a wide variety of colors and blends.

---

Anchor™ Diamond Pro Stone Cut® & Pavestone Cap
Retaining Wall System 18"

The Anchor™ Diamond Pro Stone Cut® Series has brought the latest look and appeal in architectural design with its addition of the two smaller modular components.

The three-piece system separates itself by creating alternating scale and dimensions. While the system still meets the rigorous demands for both engineering and structural components, its multiple shape patterning creates new and innovative applications for site work designs.

Colors printed here are as true a match as the printing process will allow. For best matching results, please refer to actual samples.
Create walls with a natural stone appearance without sacrificing stability. The stone-like, multi-colored face contributes to the impression of a natural rock wall.

Use these stones alone or mixed together to create natural stone beauty without sacrificing stability. The Anchor™ Highland Stone® Combo retaining wall system combines earthen tones, rich textures and varied contours to make it a reliable alternative to natural stone walls.

Anchor™ Highland Stone® Freestanding Wall System

The new Anchor™ Highland Stone® Freestanding Wall is crafted with the same earthen colors and rough-hewn texture that made Highland Stone® a top choice for retaining walls.

Straight or curved, the Anchor™ Highland Stone® Free Standing Wall is our most versatile product yet.

Product Number: 6-inch Combo 876

Anchor™ Windsor Stone®
Retaining Wall System

The Anchor™ Windsor Stone® is the perfect complement to any residential landscape design.

The low-maintenance, easy-to-install stones are the beautiful solution for projects from gardens and tree rings to curved wall projects and terraces.

Rumbled™ Wall

Capturing the old world charm, Rumbled™ Wall invites history and tradition into the modular wall product offering.

Available in a rectangle shape, simplicity and functionalism are combined. Dry stacked or mortar set Rumbled™ Wall is easily constructed and visually distinguishes itself from the other retaining structures.
SPECIAL ORDER WALL COLLECTION
Anchor™ Landmark®
Retaining Wall System

For high performance under various loading conditions, Anchor™ Landmark® is a positive mechanical connection retaining wall system that takes performance to new heights.

Pavestone Cap #819 (3" Rec.) 18" L x 13 1/2" W x 3" H
**Features & Benefits of SB-5000**

**STAINBLOCKING SEALER:**

- **Protective** - Resists a wide variety of penetrants including water and oil.
- **VOC compliant** - 50 g/l and safe to use.
- **Environmentally friendly** - Water-based product will not harm plants or surrounding landscape.
- **Invisible** - Does not change the appearance of the substrate.
- **UV resistant and stable** - Does not yellow in sunlight and protects substrate from fading.

Choosing interlocking paving stones for your home is an investment that needs to be protected. Surebond Joint Stabilizing Sealer does just that by bonding joint sand and sealing the pavement surface. Bonding joint sand maintains the structural integrity of the system – stones won’t move, sand won’t wash out and weed and ant problems are reduced. All while sealing the surface to protect it from oil, salt and food staining, as well as, maintaining the natural color of the stone.

**Features & Benefits of SB-1300 and SB-7000:**

**Water-Based Sealers and Joint Sand Stabilizers.**

- **Immediate Application** - The ONLY sealers that can be applied IMMEDIATELY after paver installation.
- **Coverage** - An average of 100 sq ft / gallon and last 3 to 5 years Indoors and Outdoors, on Old and New pavements, Concrete, Clay and Natural Stone Paving.
- **UV Resistant** - Will not yellow.
- **Breathable** - Will not trap naturally occurring efflorescence.
- **Resists freeze** - Thaw damage and will improve surface durability.
- **Solvent Free** - Meets or exceeds all VOC and EPA standards.

Maintains joint sand height, reducing weed growth and horizontal friction by bonding the sand between units.

**Polymeric Jointing Sands Benefits:**

- **Stabilizes pavers** - Follows movement
- **Resists erosion** - Water, frost heaving, wind, power washing, etc.
- **Applied dry** - Hardens after being misted
- **Deters ants and other insects**
- **Inhibits weed growth**

- **Treatment for Pavers & Slabs Benefits:**
  - **Choice of wet look, natural look or invisible protection**
  - **Protects against stains and makes cleaning easier**
  - **Removes oil, rust, tar, efflorescence, etc.**
  - **Easy to use and very durable**
Just Add S’mores

A Pavestone Fire Pit Kit can turn any backyard into a summer showpiece.

Available in 30-inch round or 24-inch square models, the Pavestone Fire Pit Kit includes everything you need to create a bold addition to any outdoor entertainment area. Fire pits will bring beauty and ambiance to any outdoor living space and will provide years of pleasure to you and your family.

30" Round Fire Pit
Anchor™ Highland Stone® Freestanding Wall System 6"

Your backyard will be an oasis you'll never want to leave!

Nothing compares with the simple, timeless appeal of a Fire Pit, whether it's a gathering place for family and friends or a calming outdoor haven at the end of a hectic day.

- 48" Outside Diameter x 15" Height
- 1-30" Round Insert with Removeable Grate
- 48 pcs. Anchor™ Highland Stone® Freestanding Wall System 6"
- 11 pcs. 3" Cap (radius cut)
- 7 bags Sand

Product Number: 496.RPT

24" Square Fire Pit
32 pcs. Rumbled™ Wall Rectangle

The Fire Pit Kit will be a great weekend project that will bring the best of memories to you and your family.

The smaller scale of the caps used in combination with the standard stones provide a distinctive and unique appearance in the completed installation.

- 40" Outside Diameter x 16" Height
- 1- 24" Square Insert with Removeable Grate
- 32 pcs. Rumbled™ Wall Rectangle
- 5 bags Sand

Product Number: 496.SPT

**Color Variations**

As in all natural materials, color in paving stones has inherent variations. Paver color is affected by the variances in the raw materials, concrete mixture moisture content, climatic conditions and other variations. Therefore, the colors shown are approximate representations of Pavestone's paver colors, but should not be expected to be an exact match of what will be delivered.

**The Nature of Efflorescence**

Another cause of color variation in pavers may be the natural phenomenon called efflorescence. Efflorescence, a deposit of white salts consisting of mostly calcium carbonate, may appear as a white powder on the paver surface and in no way affects the structural integrity. This phenomenon occurs in all concrete and although it cannot be completely prevented from occurring, efflorescence generally will weather off and disappear over time or can be removed with cleaners at the job site.

**NOTE:** Not all colors are available in all products.

Colors shown in this chart are available only from the Middleboro, Massachusetts manufacturing plant.

PAVESTONE COMPANY, L.P. Limited Lifetime Guarantee of Quality

Pavestone Company, L.P. hereby provides to the original purchaser named below a lifetime guarantee that its concrete paving stones purchased by the purchaser and installed for residential use at the address specified below will be free from defects in workmanship or materials given normal use and care. Concrete paving stones installed according to ICPI standards, and properly cared for that prove defective will be replaced without cost, except that Pavestone Company, L.P. will not be responsible for labor, transportation costs or equipment costs. Warranty covers product only. Pavestone Company, L.P. does not guaranty color matching nor does it assume responsibility for damage or defects arising from improper installation, abuse or the alteration or application of any other materials to its concrete paving stones. To obtain performance under this guarantee, the purchaser should contact Pavestone Company, L.P. at 4835 LBJ Freeway, Dallas, Texas 75244, telephone number 1-800-245-PAVE. This guarantee gives the purchaser specific legal rights, and the purchaser may also have other rights that vary from state to state.
