Whether your home is humble or grand, traditional or contemporary, imposing or unpretentious, the challenge is how to approach its landscape while creating an atmosphere that is original and pleasing, filled with personality and character.

Our inspiration pages are the perfect place to fire up your creativity. Let Techo-Bloc’s colors, patterns, textures and shapes inspire you to see your home from a unique perspective. The Techo-Bloc style book displays how our products create beautiful spaces in real world applications. It showcases art & design through examples of various combinations of antique or contemporary accessories, textiles and natural elements. Each of our products can satisfy your specific needs be they frugal or luxurious.

From the carefree elegance of the country style, the refinement of a vintage look, or the modern resort style, these rooms and outdoor spaces will open the door to your distinctive and personal perspective.
POLISHED CASUAL

“Luxury must be comfortable, otherwise it is not luxury.”
- Coco Chanel

Traditional, functional and comfortable; these are the pillars of polished casual. The focus here is not on design but on how to make the best use of your outdoor space. Organization, flow and usability are all main priorities. Things you might want to plan for: building your outdoor kitchen and dining area near the closest access to your indoor kitchen. If childproofing is a main concern, slip-free tiling and rounded edges around the pool area are a good place to start. Stick to a neutral color palette and balance it with similar neutrals in your outdoor furniture.

MODERN

“Good design is a lot like clear thinking made visual.”

- Edward Tufte

Modernscaping takes a controlled and minimalistic approach to design with clean lines and refreshingly uncomplicated surfaces. Sparsely planted grasses, shrubs and odd-shaped plantings serve as framing and transitional features between outdoor spaces. Linear and uncomplicated textured ground covers, such as concrete pavers and slabs, achieve a clean and sophisticated look. The crisp lines, rectangular and/or square shapes and an overall simple and orderly appearance will achieve a perfectly modern visual.
OTHER OPTIONS FOR MODERN:

“Rarely have Kings & Queens had the luxury of choosing their own empires, until now.”

- Techo-Bloc

Old world luxury is at the center of the Chateau look. The front of the home generally boasts a paved driveway, a beautifully shaped staircase and stone pillars that evoke a gated fortress. Multi-level pavilions flow from the back of the home onto a formal garden. When garden space is a priority, one alternative is a grand open pillared gallery framed with wrought-iron & masonry veneer fencing. Large formal flower beds and trimmed hedges are guarded by concrete borders and separated by richly paved winding walkways. Elegant concrete or stone fountains and seating benches add a touch of romance to the courtyard.

ENGLISH GARDEN

“There is no spot of ground, however arid, bare or ugly, that cannot be tamed into such a state as may give an impression of beauty and delight.”

- Gertrude Jekyll

The English culture is one of traditionalism favoring principles, enduring beauty and practicality over fleeting trends. The well thought-out English Garden flows in organic, embracing curves, and provides blooms throughout the season. Lush and colorful flora adorns elegantly paved walkways and terraces; while ponds, greenhouses, urns, and benches along with topiary accents are used to punctuate the landscape. Checkered patterns that incorporate grass and concrete slabs are also visually interesting and allow for a nice transition from the paved area to your lawn.

"There is virtue in country houses, in gardens and orchards, in fields, streams, and groves, in rustic recreations and plain manners, that neither cities nor universities enjoy."

- Amos Bronson Alcott

Country rustic style is simple, charming and unpretentious. Natural-looking products with rugged textures help transport us to mountains and lakesides. Concrete landscaping products can be used to construct features such as driveways, garden walls, pergolas and small ponds and/or pools accented with slip-resistant tiling and pool contouring. Earth tones such as tans, rusts and greys are introduced to reincarnate nature’s beauty while tall leafy trees and wood-made furniture capture the spirit of the woods.

ECLECTIC & EXOTIC

“All the best stories in the world are but one story in reality—the story of escape. It is the only thing which interests us all and at all times, how to escape.”

- A.C. Benson

Whimsical, adventurous and free spirited, the eclectic & exotic styles have been merged as they share the same secret: the desire to escape. Mixed textures & bright colors, as well as funky designs are all encouraged. Mosaics can be a unique way to add a hint of exotic flavor or personal touch to your landscape. Consult with a landscape architect or contractor to create patterns where the colors, products and shapes are blended to reflect your individual style. Start with the functional features you would like for your backyard and then work to make these match your aesthetic values.

MEDITERRANEAN

“The Mediterranean life style, a loosely defined fantasy of casual, healthful, warm and intimate existence, is comfortable for the stylish and accessible for the striving.”

- NY Times

The lifestyle of the Mediterranean is centered around simple family life at the table. Warm food, warm people and warm colors set the ambiance for a truly authentic Mediterranean feel. An al fresco dining area paved with beautiful tiles and a rustic outdoor kitchen built with textured stones invite the creation & enjoyment of heart-warming food shared between loved ones. Wall fountains, waterfalls and vegetable gardens remind us of the simple pleasures that life offers us.
